REVIVE SPA

EASY PRESS

Higgins & Co. Catering Solutions are proud to launch thier new bulk toiletries system, Revive Spa Easy Press.

The range is based on the Argan Oil which has long been in use in Morocco for cosmetic purposes. Made from kernals of the the Argan Tree this oil contains a host of useful ingredients.

- Vitamin A, C and E
- Antioxidants

The oil is sought after for a wide variety of cosmetic and health products, owing to its natural, anti-inflammatory and moisturising properties.

The new products with Argan Oil will help moisturise and strengthen the hair and scalp. Used together with the conditioning shampoo leaves the hair that is not only less prone to breakage and looks smoother and softer as well.

EcoPure

EcoPure is an organic additive that causes the plastic bottle to biodegrade through a series of chemical and biological processes in a landfill disposal environment.

The biodegradable bottle is capable of being decomposed by bacteria or other living organisms and thereby avoiding pollution.

To dispense the product simply squeeze the bottle.

with Argan Oil
EcoPure
